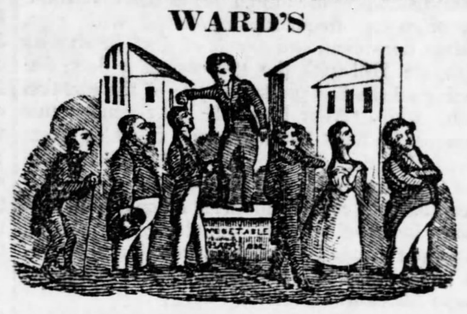
WARD'S



VEGETABLE HAIR OIL.

IN all ages of the world, a beautiful head of hair has been considered the greatest ornament ever bestowed by nature upon the human frame, and indispensably necessary to the perfection of personal beauty. It is a very general complaint of young persons, that their hair is falling off, becoming dry, or unhealthy; this may be owing to the application of improper and injurious oils, or to the entire neglect of the hair. Without proper attention, diseases of the hair will arise, which are often found to occasion thinness, falling off, and frequently total baldness. For these evils, and the necessary inconveniences attending them, Ward's Vegetable Hair Oil will be found in all cases a sure remedy. Before offering this Oil to the public it had been tried in hundreds of cases of baldness, thinness and falling off of the hair, and in every instance its salutary effects have been realized to admiration. It has never failed to produce a new and beautiful growth of hair on heads already bald, and to check that falling off which so often occurs. In cases where it becomes dry and ceases to grow, this Oil will very soon render it healthy, and produce a rapid and beautiful growth, without the least injury to the most delicate head; nor does any falling off follow after using it. That loss of hair, which so often takes place after sickness, may be easily prevented by using this celebrated Oil. In short no Oil has ever been offered to the public that gives such universal satisfaction, and stands the test of experience like Ward's Vegetable Hair Oil.

That the public may rest assured of the salutary effects of this Oil, the following testimonials, from gentlemen of high respectability, are most respectfully submitted:—

Extract of a letter from John A. Wadsworth, M. D., of the city of Providence, R. I. to W. & L. Krumbhaar & Co., of Philadelphia.

Gentlemen: Dr. Ward's Vegetable Hair Oil has gained great repute with us, having restored Hair on heads that have been bald for years, and I have no doubt it will give satisfaction wherever it may be introduced.

Very respectfully,
JOHN A. WADSWORTH.

Messrs. STANLEY & Co., of Baltimore, in writing to Mr. HUNTON, Druggist, in Washington City, say, 'That Letters to them from Druggists in Boston, describe *Ward's Hair Oil* as being highly approved of there, and selling with astonishing rapidity.

Extract of a letter from Harvey Seymour, Druggist, Hartford, Ct., to the Proprietor, dated Hartford, Sept. 14, 1832.

Dear Sir: I find your Hair Oil a valuable article; I was so unfortunate as to lose the Hair from the top of my head, and, from the use of about half a bottle, I find it starting out anew.

HARVEY SEYMOUR.

NEW YORK, Feb. 27, 1832.

Dr. WARD—*Dear Sir:* Your Hair Oil, you were good enough to put into my hands when I was in Lowell, has produced the most wonderful effects on my Hair that I ever witnessed. You recollect when I called on you, my Hair had fallen very much, and I was quite bald; I have now a beautiful head of Hair, coming on very rapidly. I hardly know how to express my gratitude to you for the benefit the Oil has afforded me. A number of my friends are very anxious to obtain some of the Oil, and I wish you to send me one dozen bottles of the largest size immediately.

Yours, respectfully,
C. WOOD, M. D.

Extract of a letter from Dr. John A. Wadsworth, of Providence, to the Proprietor.

Esteemed Friend: Your Hair Oil is attended with very promising effects. One of our most respectable citizens, who had been bald for ten years, with a skin as smooth and free from hair as the palm of his hand, has been using the Oil, and fine hair is now coming out on every part of the previously bald scalp.

Yours, respectfully,
JOHN A. WADSWORTH.

NEW YORK, Nov. 1, 1832.

I certify that about fifteen years ago, my hair began to fall off, and in a few years became so thin that I found it a source of great inconvenience. On seeing Ward's Vegetable Hair Oil advertised in several New York papers, and highly recommended by two medical gentlemen, with whom I was acquainted, I was induced to make trial of it. When I commenced the use of it, I very much doubted its efficacy in my case, having been bald so many years. But I had not tried it long, before I found it to possess the properties which had been attributed to it. I have now as good and healthy a head of hair as I had twenty five years ago. I can cheerfully recommend it to others who have had the misfortune to lose their hair.

G. W. CUNNINGHAM.

BOSTON, Nov 3, 1832.

Dr. WARD—*Sir:* A friend of mine had a bottle of your Hair Oil put into his hand, and using it a short time, the hair began to grow on his head, which was before bald, and he had tried many other remedies in vain.

Yours, respectfully,
C. E. ALLEN.

BOARD OF HEALTH.

AGREEABLY to the 4th section of the Ordinance for Sanitary Purposes, the following gentlemen, on its reorganization, will constitute the Board of Health for the month of July, viz:

Samuel Pettigrew, *Mayor.*
E. Pentland, *Recorder.*
J. Young, C. Von Bonnhorst, Robert Christy, } *Aldermen.*
Walter Forward, John B. Butler, } *Select Council.*
S. P. Darlington, C. Darragh, Joseph Coltart, } *Common Council.*

The Board will meet three times in every week, and oftener, should the cholera or any emergency require it. July 12, 1833—1m

DAILY PITTSBURGH GAZETTE.

FRIDAY AFTERNOON, AUGUST 9, 1833.

CHOLERA.—Our city is now as healthy as usual —no case of Cholera having occurred since the first instant.

PUBLIC BUILDINGS.—We publish, to day, a communication upon this subject without intending to indicate any preference for the site advocated by A. B. C.—We are anxious that the Commissioners should perform the duty assigned to them by selecting some place where suitable buildings may be erected.

AUGUST 9TH, 1763.—It is, to day, just seventy years since Col. Boquet arrived at this place, and relieved the garrison in Fort Pitt from the distresses and inconveniencies of a long investment by the Indians.

What a remarkable contrast does the present aspect of our place afford to the wild scene exhibited here just before the arrival of Boquet. The noise of the steam engine, the rattling of the stages and carriages over our pavements, and the hum of business, have succeeded the whistling of the arrows, the sharp crack of the rifle, and the wild hoop of the Shawanese; and the peaceful display of a volunteer parade has, this day, succeeded and commemorated (perhaps unconsciously) the silent, steady, and watchful march of an army in the face of a savage foe.

For the Gazette.

MR. CRAIG—There is no subject in which the citizens of Allegheny county seem to be more interested than the selection of an eligible site for the erection of the public buildings, including the Court House, the offices attached to the same, and the Common Jail.—If the work is to be done during the ensuing season, it is indispensably necessary that immediate preparations should be made.

The attention of the Commissioners has been directed to this subject, by their fellow citizens in their public and private assemblies; by reports of successive Grand Juries for the last three or four years, who have not only represented the prison to be an inconvenient, unsafe, and loathsome place, but as a public nusance; and by the exertions of our worthy representatives in the Legislature, who procured the enactment of a law authorizing the Commissioners to sell the public property, so as to enable them to comply with the wishes of the community.

We have understood that our Commissioners, in casting about for a suitable location, have confined their attention to two lots—one near the corner of Fourth and Liberty, and the other near the corner of Fourth and Grant streets. Here they have paused to waste their breath in talking of the importance of the subject, when they are called upon to act.

It is extremely desirable that efficient measures should be immediately adopted to carry into effect the wishes of the people, and in doing so, a site should be selected remote from the noisy and business parts of the city, where halls could be erected, sufficiently airy and commodious, for the accommodation of the Supreme Court, the Circuit Court, the Quarter Sessions, Common Pleas, and Orphans' Courts—the District Court, the Mayor's Court, and the District Court of the United States —all of which are now huddled into a single room.

The area offered upon Grant's hill, would afford abundant room for all the buildings required, upon the most extensive plan. It would present an agreeable and shady retreat, or promenade ground, for the relaxation of individuals wearied with the heat and exercises of the day—it embraces within it, a fountain of the purest and most delicious water, and is sufficiently elevated not only to enjoy the refreshing western breeze, and to avoid much of the dust and smoke of the city, but to command a beautiful prospect of the picturesque scenery around us.—In the course of a few years, too, the high grounds of our neighboring hills will be more justly appreciated, and we may anticipate the day when noble edifices will range along the hills, and make the place now contemplated as the seat of the public buildings, almost the centre of our population.

A. B. C.

DIED,

At Sharpsburgh, of Cholera, on Friday, the 2d inst., Mr. ADAM COOK, in the 30th year of his age.

Though the deceased was a stranger to fame, yet he possessed many of those traits which beautify and adorn the human character. His powers of mind were naturally strong, and such as a liberal education would have caused to shine with brilliancy. He was a sincere friend, and beloved by all who knew him. As a brother, he was affectionate and kind, but his duty, as a son, to an aged and now disconsolate mother, was not among the least of his qualifications. Through his life she was his care, and, on his death bed, his last injunction to his surviving brothers was, to comfort and soothe her declining years. He was honest and upright in his intercourse with his fellow man; he was generous and liberal to the best of his ability—and, though he is gone, (we trust to a better world,) his memory will be long cherished by those who knew him.

Although he fell a victim to Cholera, he was clear of all intemperate habits; but, for want of a sufficient knowledge of the disease, he was too far gone before any remedy was resorted to. He had a severe diarrhœa the day before, which increased, without complaint, on his part, till it was too late. He had been exposed to the air during the night, and before medical aid was called in, in the morning, he was in the collapse stage. He died at 3 o'clock the same day.

Feats of Pedestrianism.—The greatest pedestrian feat on record is attributed, by an English paper, to Mr. Howard, who, some 15 years since, in February, undertook to perform 600 *miles in ten days*, over a two mile piece of ground. The pedestrian finished 390 miles the first six days, which was 60 miles more than his task. On the seventh day he began to flag, but accomplished 56 miles. The next day he was 18 hours in doing 57 miles, having recourse to bathing for relief. The next day he was 19 hours performing 52 miles, and he was not expected to be able to go on the last day, from excessive fatigue. He had 45 miles to win the match; he started at two in the morning, proceeding at first under three miles an hour. At four P. M. he went to bed, having done 31 miles. He had then 14 miles to do in eight hours. He rose again at seven, and won the match soon after eleven, distressed in a manner not easily described. It was for 200 guineas.

Another most extraordinary instance of speed occurred in 1818, in the case of a young man named Carpendale, who undertook, for a wager of one guinea only, to go on foot from Ashwell, Rutland, to Market Harborough, a distance of twenty two miles, in two hours. He left Ashwell at twelve o'clock at noon, and arrived at Harborough, at fifty five minutes past five o'clock, having five minutes to spare, and outwent a person on horseback, who attended to witness the performance.

It is also stated that at Spilsby, in Lincolnshire, a respectable bookseller, of the name of Howe, for a trifling wager, in the month of July, 1817, on a piece of ground, measured for the occasion, walked six miles in the unprecedented short space of forty minutes and twenty seconds.

The famous Blumsell was at one time the greatest runner in England. It is not many years since he undertook to run a distance of nine miles and a quarter in one hour, on what is called the Rumford Road. The crowd of witnesses on both sides was immense, and the windows of every house were filled. It was, says our authority, a truly arduous task; and the ease and style with which Blumsell made his way, astonishing every one present. He had no opportunity for training, as the bet was only made on the preceding Friday. Notwithstanding the difficulties he had to encounter, of being frequently enveloped with gigs, chaises, horsemen, and clouds of dust, he shot up Highgate Hill with the fleetness of a deer, distancing all the fine prads, in spite of the exertion of the whip. After Blumsell had ascended this steep hill, he went two miles over Finchley Common, in less than 11 minutes. Unfair means were used to prevent his winning; particularly the interruption of a man, who twice crossed him, and whom Brumsell collared and ultimately floored; yet he performed this most extraordinary feat in one minute and twelve seconds under the time.—*Boston Mercantile Journal.*

MAELZEL'S EXHIBITION.—This wonderful exhibition, which has probably given the proprietor over $3,000 since his recent arrival in this city, will close on Saturday, and the proceeds of the last evening will be applied to charitable purposes. We advise all who have hitherto neglected to attend, to neglect it no longer. Mr. M. is going to Cuba next, and perhaps to Europe; it is a matter of some doubt whether we shall see his face again.

He has acquired a very pretty fortune, we suppose, by this ingenious business—say half a million or so—we Yankees are incorrigible fellows to *reckon* and *calculate*. He traveled once, it is said, about 30 years ago, from Milan to Vienna, with 20,000 gold Napoleons in his wagon, done up in the shape of Bologna *sausages*, and screwed into the bottom of the carriage! The Trumpeter is rated at $8,000. The Conflagration of Moscow is immensely valuable. This was commenced at Vienna, in 1812, the next day after the news came of the burning itself, and was completed in three weeks, so as to be shown to great crowds four or five times a day. It produced a strong sensation, and the Austrian ladies particularly, who were affected to tears, left the room assuring the proprietor they would never visit him again. Napoleon himself engaged, in that city, with the Chess player, in presence of the whole court. He moved "like lightning," as Mr. M. says, and was speedily beaten. He offered him a patent, &c., if he would go to Paris, which being declined, he sent him a present of 200 gold Napoleons the next day.

Mr. Maelzel has a splendid Diorama, which he cannot exhibit here for want of a suitable room.—He has also other ingenious contrivances in store, and is constantly devising "some new thing."—His industry is as inexhaustible as his ingenuity. And what is best of all, he is a gentleman, a man of sterling honor.—*Bost. Merc. Jour. July* 31.

Extract of a letter from a gentleman of the Free Trade Party, now in Europe, to his friend in Baltimore, dated

"PARIS, May 18.—You will no doubt be astonished when I inform you that neither in England, Germany, or France, have I found a single advocate for nullification; and I am more than half disposed to believe, that it would not have proved a peaceful remedy—and our fine spun theories, like every thing else under the sun, are liable to be confuted. I have learned from papers which I have received, that "Clay's Bill" had passed, and from the Northern prints, I am induced to believe, both parties will be satisfied.

I will not now hide from you, that while on the one hand nullification is detested in Europe, the Union Party receive the praises of all, for the dignified stand they maintained, and their firm adherence to the principles which governed them; nor will I deny, that while like a very stubborn fellow I defended the principles of my party, which I believed to be pure and patriotic, I could not refrain from joining in the praises which are so universally bestowed on them. The probable peaceful arrangement thus made, between our dear Carolina and the General Government, has dreadfully disappointed the Royalists, while it has given general satisfaction to the liberal parties every where—and when LAFAYETTE deplored to me, even with tears, the state of affairs in America, I felt one of those severe twitches, which the sages tell us, is the inward God, but which the vulgar call remorse."

Chains of Poland.—The administrative council of Warsaw, by a decree dated March 1st, has regulated the weight of the chains by which Polish prisoners are to be fettered. All male convicts are to drag seven pounds weight of iron—women, six!

Bell's (London) Weekly Messenger is abundantly wroth at the grant of twenty millions sterling to the proprietors of the slaves in the British West Indies. It says—

"The West India islands are not worth twenty millions altogether. For this sum of money we might buy the whole of the Brazils, and have raised all the sugar we want, and all the revenue we require upon it, in the boundless extent of those happy and fertile regions. Are the Ministers really afraid that there will exist a scarcity of sugar, and that the revenue we raise upon sugar could be raised on the West Indian Plantations only? Sugar is the corn of the tropical climates, and can be raised anywhere through the vast extent of the South American states, to say nothing of the East Indies. And as to revenue, Mr. M'Culloch would tell them, that the tax is paid by the consumer, and that the revenue would gain perhaps half as much more if the trade were opened, and the duty lowered.

"Let us see what these proprietors of slaves will now cost us. First, there is a bounty of ten shillings per hundred weight upon all the sugar we take, that is, all foreign sugar pays ten shillings per hundred weight more than West Indian sugar. Now, if this be calculated upon the sugar imported from the colonies, it will amount to an annual bounty of one million two hundred thousand pounds to the West Indian trade. We are now about to add a further annuity in their favor, an annuity of eight hundred thousand pounds, which makes a sum total of two millions annually, a sum nearly equal to the whole amount of the House Tax, and awarded to a set of men whom no one, however charitably inclined, will venture to hold forth as in any degree a deserving class of men."

In London, at a late meeting of the United Kingdom Agricultural Institution, a member of the Committee of Management read several extracts from a pamphlet, published by a Peer of Ireland, showing that there are 4,800,000 acres of perfectly reclaimable land in that country, offering every inducement for the investment of capital, under Government protection of this object, which is that of providing suitable portions of land for the employment of the peasantry.—*Nat. Gaz., Aug.* 5.

The Law of Primogeniture.—It is reported, in our upper circles, that a member of the Cabinet had expressed a wish to bring forward a measure for the abolition of the law of primogeniture, but that he found so little support from his colleagues that he has abandoned his intention on the subject.

Temperature of England.—The mean temperature of London is about 2 degrees higher than that of the surrounding country; the difference exists chiefly in the night, and is greatest in the winter, and least in spring. During the whole year the mean temperature of England does not vary in different years, more than four degrees and a half.

Commerce of Great Britain.—The official value of the imports into the United Kingdom, in 1831, was £49,727,180, and of the exports £71,431,491. In 1832, the official value of the imports was £44,586,241, and of the exports £76,071,572. The exports of foreign and colonial produce were, in 1831, £10,745,126, and, in 1832, 11,044,868: those of British and Irish produce and manufactures were, in 1831, £60,686,364, and, in 1832, £65,026,702. In 1831, the British exports to the U. States amounted to £12,596,173, and the imports from them, to £8,970,342. The imports from the British West Indies were £8,448,839, and the exports thither £3,988,286.

A Spanish Wife.—A female of Puertoblanco, (La Mancha,) shortly after retiring to rest with her husband, plunged a poniard into his breast, and then getting up, she ran out, crying that her husband had committed suicide. But the husband had time to declare that his wife had been the murderess.

Rose of Jericho—(*Anastatica Hierochuntina.*)—This little plant grows in the most parched deserts. By the time it dies, owing to the great drought, its tissue has become almost woody; its branches fold over each other till the whole mass assumes the form of a ball; its seed vessels have their valves tightly shut, and the plant remains adhering to the ground by a solitary branchless root. The wind which always acts powerly along the surface of a sandy plain uproots this dry ball, and rolls it along. If it now chance to meet with a splash of water whilst performing its constrained but necessary journey, it speedily imbibes the moisture, which causes the branches to unfold, and the pericarps to burst; and the seed which could not have germinated, if they had fallen to the dry ground, now sow themselves naturally in a moist soil, where they are able to grow, and where the young plant may support itself.—*De Candolle's Vegetable Physiology.*

Rumors are prevalent at the Court of St. Petersburgh that all intention of the long suspended confiscation of the Czartoryski estates is abandoned; and that the sentence of exile of the Prince is about to be rescinded—as well as that of several other illustrious families, who are supposed to have taken little share in the projection of the late revolution. Prince Adam Czartoryski has long been honored by the personal regard of the Emperor of Russia.

Cigars.—The quantity of Cigars imported into the United States, in the year ending September 30, 1832, was 42,516,000, valued at $473,134.—The year previous, 39,212,000—$433,558.

British Navy.—The Royal Navy consisted on the 1st of January, 1833, of 22 first rates of 108 to 120 guns; 31 second rates of 78 to 84 guns—68 third rates of 74 to 76 guns; 22 fourth rates of 50 to 52 guns; 101 fifth rates of 42 to 50 guns; 95 sixth rates of 26 to 36 guns; with 74 18 gun vessels, and 161 small craft, making, in all, 574 armed vessels.

Rise of Property.—A lot of land was recently sold in Buffalo for $75,000, which, a few years ago, was purchased for $300. This truly prosperous city is destined to be of great commercial importance, and probably not many years will intervene, ere it will prove the capital of the Mighty West.

U. S. Bank Deposits.—The following paragraph, from the last Richmond Enquirer, will show how the wind sets in that quarter. It seems, the Enquirer cannot approve the removal of the deposits, or justify that measure to the men of the Ancient Dominion—unless in a case of "strong necessity." Such a case, we think, can hardly be *got up* at present, even by Mr. Amos Kendall.—The Enquirer says:—"As to our own opinion, it is of little consequence, but we do not hesitate freely to express it. No man will charge us with any love for the Bank of the United States. We are against its renewal, *now and forever*, so long as the Constitution remains as it is—but we trust, notwithstanding, that the measure of removing the Deposits will be most duly weighed before it be adopted—and not now adopted, but in a case of strong necessity."—*Baltimore Patriot.*

Desertion.—The New York Enquirer states that a captain of a Swedish vessel applied a few days since to the Police Magistrates in that city, for process to arrest his crew who had deserted, including his mate. The cause assigned was the small amount of compensation allowed them.—The captain assured the magistrate that he was only allowed *seven dollars* per month as his wages for the voyage. What, asks the editor, must have been the wages of the crew under like circumstances?

A Milledgeville, (Geo.) paper gives the following intelligence.—*Nat. Gaz.*

"It has been known for some time at this metropolis, that Mr. Calhoun has been several weeks in the Cherokee territory, for the alleged purpose of procuring an interest in some gold mines. Rumor says, however, that his conduct has assumed rather the appearance of a political mission, than the superintendence of private affairs. Rumor informs us, that this gentleman is endeavoring to propagate his nullification creed wherever he goes."

It is now announced that the Hon. Edward Livingston will sail for Havre in one of the New York packets, instead of the U. S. ship of the line Delaware. A passage in the Deleware would have a better effect for public objects. We do not doubt that the French ministry will carry through the convention of indemnity for American claims. The assent of General Lafayette and his immediate associates will assure a majority for it in the Chamber of Deputies.—*Nat. Gaz.*

Good Advice.—It is better to tread the path of life cheerfully, skipping lightly over the thorns and briers that obstruct your way, than to sit down under every hedge, lamenting your hard fate. The thread of a cheerful man's life spins out much longer than that of a man who is continually sad and desponding. Prudent conduct in the concerns of life is highly necessary—but if distress suceeed, dejection and despair will not afford relief. The best thing to be done when evil comes upon us, is not lamentation but action; not to sit and suffer, but to rise and seek the remedy.

It is stated that Miss Edgeworth is about to give the world a new novel.

Beastly Revenge.—A truckman, in Boston, named Leonard Wells, a native of Vermont, while flagellating a horse which was tied in a stable in Oliver street, received from the animal a violent kick in the abdomen, of which the man died in about four hours.

The London Court Journal boasts that the best cookery, best continental wine, fish, game, and indeed every sort of *comestible*, are found in London. "Talleyrand, the most accomplished feeder of modern times, freely admits that he never beheld French Cookery in perfection until he visited London."

Church in Scotland.—Attached to the Church of Scotland there are 944 livings, & the patronage with respect to them at present stands thus. In the gift of individuals, 583; of the crown, 274; of town councils, 72; of the heritors, 13; of universities and societies, 6; of kirk sessions, 2; of heads of families, 2; congregation, 1; disputed, 1.

The wheat maggot is making great destruction among the crops in the vicinity of Johnsbury, Connecticut. The editor of the Messenger recently made an examination, in a field adjoining his office, and in ten heads, he found but twenty kernels untouched by the weasel. In some instances six or eight insects were found in one kernel.

The population of Lower Canada is put, in round numbers, at about half a million, of whom at least *four fifths*, or 400,000 are of French descent.—Notwithstanding this disparity of numbers in favor of the French population, the favors of the government are dispensed in an inversed proportion, much to the discontent of the majority. In a late Montreal paper it is stated, that out of 483 magistrates in the province, only 160 are French Canadians, and the remaining 323 British.

Great complaints are very naturally made of this inequality, and parties are moving on the subject. Such a ground for popular appeal to a majority in number, will be a powerful aid to the malcontents in Canada, who are already numerous and enterprizing in their views against the existing order of things. The dissensions which have been for some time past fomenting, are not likely to be settled permanently, so long as Canada remains dependent upon a government so remote, and incapable of managing promptly and efficiently the interests of such a large and growing country.—*Balt. Amer.*

The number for last month of Professor Silliman's *Journal of Science and Arts*, is unusually rich in matter of popular attraction, besides the merely scientific, with which it is always well supplied. The contributions of Dr. Hare and Dr. J. Griscom are large, curious, and instructive. There are several translations from the French, of articles which are entitled to particular attention; and some interesting extracts from the note books of Americans abroad. Professor Silliman has inserted, in this number, letters of the celebrated Lieut. Governor (Dr.) Colden and Dr. Franklin, dated in the year 1743, on a "new method of printing," by which correspondence it appears that "the *stereotype* process, said to have been invented by M. Herhan, in Paris, and now practised by him in that city, under letters patent of Napoleon, is precisely the same as that spoken of by Dr. Colden more than sixty years ago." Professor Silliman adds —"It is more than probable that when Dr. Franklin went to France, he communicated Dr. Colden's 'new method of printing' to some artists there, and that it lay dormant until about sixteen years since; when Herhan, a German, who had been assistant to M. Didot, the printer and type founder, of Paris, but then separated from him, took it up in opposition to M. Didot. We have conversed with gentlemen who have seen M. Herhan's method of stereotyping, and they describe it to be exactly what Gov. Colden invented. This fact established, there can be no doubt that M. Herhan is indebted to America for the celebrity he has obtained in France."—*Nat. Gaz., Aug.* 5.

HISTORY OF PARTY IN THE UNITED STATES.

Monstrum horrendum, informe, ingens; et cui lumen ademptum—Virgil.

"A horrid monster, furious, vast and blind."

It is stated in a Philadelphia paper, that a gentleman of the Jefferson school of politics, is about writing a history of parties.

None but a fearless and capable man can write such a work as it ought to be written. But, if he execute his task ably and justly, the benefits to the nation may be, will be, incalculable.

From his history we may deduce saving lessons and most precious calculations.

1. How the people always manacle themselves, and rivet their own chains.

2. That, on an emergency, a party, like an army, may be useful, but when past, that it ought to be disbanded—if men would remain free.

3. How often, and to what extent, a party chief may change his opinions or apostatize, and how the nation (that is, the party,) will shuffle, face about, and wheel with him, in all his tergiversations.

4. The danger of conferring monarchical power on a Republican chief Magistrate.

Political writers have truly told us, that in England "the crown had swallowed the commons," and can we have the same cause without the same effect?

We are not incurious to see how Mr. Jefferson will figure in the work. That great man, who drafted the Declaration of Independence, and who since acquired Louisiana—even he preached anarchy, in 1799, and in 1801, labored to efface his own doctrines, and teach precepts of order and subordination. Still, many fear that in the former he has bequeathed us the garment of the Centaur, the poisoned shirt in which the fabled Hercules expired in torments.

In fine, we believe that a true history of party will immortalize its author, and may save this Republic.—*N. Orleans Bulletin.*

From the private correspondent of the Leeds Mercury, London, June 15, 1833.

THE WOOL TRADE.

The wool trade is in a state of increasing activity. The accounts received relative to the result of the Breslau wool fair have given great firmness to the market, and the prices of all descriptions are advancing.

The letters from Breslau state that the attendance of buyers there was numerous, but that there was very little wool displayed. The produce of the flocks in Silesia has been nearly all contracted for, privately, at advanced prices. The demand was so brisk that choice descriptions sold, in some cases, at an improvement of not less than 40 per cent. The information obtained at Breslau from all the districts around induced the opinion that a general advance would occur at the approaching fairs. The consequence was that the prices realized generally were at an improvement averaging about 30 to 35 per cent. It is believed the supplies on the Continent will be short this year.

These accounts have caused increased transactions in the wool market here, and a great deal of business has been doing at advanced rates. The sales of wool, which took place yesterday, and to day, were fully attended, and further arrivals are anxiously looked for. The demand in France, Hamburgh, and other places is also increasing, and many export orders of British fleeces have been completed: within the last seven days there have been entered for Ostend, Calais, &c., not less than 550 cwt. The arrivals from Germany have been very limited recently not having exceeded 100,000 lbs.

The public sales of Colonial and other Wools announced for this week have attracted much interest, owing to the improved condition of the trade. The declarations consisted of about 180 bales.

The sales of yesterday consisted of 208 bales of Australian and Van Dieman's Land Wools of the new clip, and all sold at prices fully 3d per lb. higher than the previous sales. The best qualities realized from 2s. 2d. to 2s. 7d. per lb., and the lower sorts from 1s. to 2s. 1d. per lb. The wools were, generally, of improved quality, both as to growth and the manner in which they were sent over.

The sales of this afternoon consisted of 400 bales of Spanish, 120 bales of Australian, 32 of German, and about 30 bales of Merinos, Cape, &c. This sale was more fully attended than that of yesterday, and increased spirit was evinced in the biddings. There were more manufacturers in town to day than yesterday, but the attendance of Yorkshire and other places was not so full as was anticipated.

The finest Australian wools offered fetched in a few instances as high as 2s. 11d. to 3s. 1d. per lb., and in general the fair descriptions sold at from 2s. 6d. to 2s. 10d. per lb., and the inferior qualities at 1s. 5d. to 2s. 5d per lb. The German wools fetched 1s. 9d. to 2s. 3d. per lb. and the Cape 2s. to 2s. 4 1-2 per lb. The result of the sale of this afternoon established a total rise on the last sales of 6d. per lb.

The sales announced for to morrow consist of 700 bales, of which rather more than 300 bales of New South Wales, 120 bales of which are the produce of the flocks of the Australian Agricultural Company. The remainder of the sales consists of 214 bales of Spanish Wools, about 50 of Cape, 23 of German Wools, &c. It is fully believed that they will go off at higher prices.

The advices received from Madras, Calcutta, and America, within the last few days, all notice an improved demand for British woollens. At Calcutta, several sales had been made, but prices still remained very depressed.

EXPORT OF BULLION.—The entries for the exportation of the precious metals have been exceedingly large within these last few days. Since the commencement of the present month, not less than 440,000 ounces of gold and silver coin, and bars, have been entered for exportation.

STATE OF TRADE.—There is a great increase in nearly every branch of commerce, and speculation has become unusually active. Saltpetre has advanced about 5 per cent. Coffee, sugar, cochineal, silks, lac dye, indigo, cottons, and many other articles, are in good demand, at advanced prices.—On referring to the customs list, we find that the deliveries of almost all the staple articles of trade have greatly exceeded those up to the corresponding period of last year.

BOSTON MARKET, August 2d.

Ashes—No change on prices has occurred since our last report, and the transactions have been confined to a few pots at 90 a $92, and pearls $112 50, per ton.

Coffee—Market firm—late advices from abroad more favorable, and recent transactions of considerable importance, embracing Rio at 12 a 12 1-2 —Java 13c—Havana 11 1-2 a 12 1-4, and St. Domingo 11 3-4 a 12c., per lb., 6 mos.

Cotton—Further advices have been received from England since our last, of another rise in this article, and holders here have consequently manifested less inclination to sell, even at the late advance on prices. We increase our quotation for some descriptions.

Fish—For some prime cured bank fish, an advance on the last quotation was realized, with an improved demand. Sales of No. 2 mackerel have been made at $5, and No. 3 at $3 per bbl.

Flour—The market, during the present week, presents but few transactions of any importance —prices remain the same, at which rate holders are disposed to part with their stocks—Philadelphia has been sold at $5 7-8, and Fredericksburg the same, 4 mos.—Howard st. 6 1-8, 4 mos., and Genesee 5 30 a $5 82 cash.

Indigo—There have been some speculative operations in this article, and, since the last advices from England, an advance of considerable importance has been sustained on good consuming qualities.

Oils—Sales of English lint seed, of late importation, have been made at 90c., 6 mos. cr., on landing—Sperm. continues firm at the advance noticed in our last report.

Sugar—The market sustains the advance noticed in former reports by sales of Havana brown at 8 3-8 a 8 5-8—Porto Rico 8 a 8 1-2—St. Croix 8 1-2 a 8 5-8, at which prices considerable sales have been made, partly for Southern markets—118 bbls. Cuba, by auction, at $7 65 a 8 50—22 hhds. do. do. 7 37 a $7 50, on 4 mos. credit.

Wool—The transactions of late have been extensive, with a tendency to a further improvement on prices—several hundred thousand pounds have been sold at full prices—a large lot of Spanish sheep's wool has been sold at 90c., and lambs at 87 1-2 c. per lb.—Wools have advanced in Europe by the latest advices.

LIST OF ARRIVALS

At the following Hotels, in this city, during the 24 hours ending at 10 o'clock, this morning.

MANSION HOUSE—B. WEAVER.

R. T. Smith, Canonsburgh; Kendall Jackson, Carrollton, O.; James Lindsy and Lady, Columbus, O.; Fulton Lindsy, New Orleans; W. Lindsy, Columbus, O.; Miss Lindsy, do.; S. Seniker, Darksville, Va.; D. H. Strother, Martinsburgh, do.; J. Gordon, Williamsport; Alfred Hamilton and lady, Harrisburgh; Jos. Lowry, Philad.; Samuel Lowry, do.; Jos. Higgins, Barree Forge, Huntingdon Co. Pa.; L. White, New Orleans; Edwd. Isett, Greensburgh; Robt. Cochran, New Castle, Pa.; Wm. M. Darlington, Canonsburgh.

PITTSBURGH HOTEL—C. M'KIBBIN.

Saml. B. Robinson, Washington; H. A. Leavitt, Pittsburgh; F. Brentlinger, Wheeling; Mrs. Shouse and servant, Flaugherty; Mr. Picknell, D. C.; Mr. Douglass, Frederick, Md.; Eli Baldwin, Trumbull county, O.; Wm. McCombs and lady, Wooster, O.; Miss E. Stockton, do; Francis Armstrong, Ohio River; J. W. Lambdin, Wheeling; R. R. Ballard, Princess Anne, Md.; G. Bailey, Detroit; Wm. Reeves and M. Reeves, Bellevernon; S. Newton and Son, Middleburgh, O.; C. A. Harris and lady, do.; Francis Armstrong, Mercer; Pleasant Crewe, Knoxville, Tenn. Matthew Scott, Pittsburgh; James Kenney, N. York; J. Frazier, Lancaster.

EXCHANGE HOTEL—B. MAGUIRE.

Aug. 8.—Mr. Strong, lady, and servant, New York; Gen. Stewart, Kiskeminitas; James Barnes, Boston, Mass.; Geo. Oates, New Jersey; H. Clark, Washington, Pa.; L. B. Wright, Annapolis; R. T. Templeton, St. Clairsville, O.; Samuel Oliver, Chambersburgh; Saml. Rhon, Pittsburgh; Mr. Cowan, Pennsburgh; Mr. Waterman, Blairsville; Major Johnston, do.; Mr. Wallace, Pittsb.; A. Henderson, do.; Jane Barnet, Ebensburgh; J. Reneh, Dayton, Ohio; James Whailon, Warren co. O.; Andrew Thompson, do; John Smithson, Indiana.

TO TANNERS.

600 DRY ARKANSAS HIDES—of superior quality;
200 Dry La Plata, do. do.;
40 Barrels Brown Tanners' Oil.
On hand, and for sale by,
LITTLE & HAYS,
No. 3, Market Street.

Pittsburgh, Aug. 9, 1833.—4tw

THE FAIR THING.

SEEING a notice of S. Baird & Co., is the cause of this statement. On the 19th of July, I assigned to S. Baird my Books, to pay the judgment due S. Baird & Co., as well as other debts specified in said assignment. The judgment S. Baird was to have cancelled the next day. On the 22d instant, I called in the Prothonotary's Office, and found it still unsettled, and not until the 3d of August did they comply with the previous agreement, as may be seen by the Prothonotary's Docket—and I defy them or any one to say that the notes were offered in the interim, to assign or transfer, but were held to have said "judgment" satisfied, which can be proved by reference to Walter Forward, Esq.

JAMES LAPPIN.

August 9—3t

110 Bbls. Old Monongahela WHISKEY
37 Bags St. Domingo COFFEE;
26 Bbls. Sugar House MOLASSES;
Will be sold low, to close consignments, by
LITTLE & HAYS,
No. 3, Market street.

Pittsburgh, Aug. 9, 1833.—6t2w

AN ORDINANCE,

AUTHORISING the Mayor to borrow the sum of Six Thousand Dollars, for Sanitary and other purposes.

SECTION 1. *Be it ordained and enacted, &c.* That the Mayor of the city be, and he is hereby authorised, to borrow on loan, any sum or sums of money, not exceeding Six Thousand Dollars, and to issue therefor, certificates under the seal of the corporation, of one hundred dollars each, or more at the election of the lender, bearing an interest of not more than six per cent. per annum, which interest, shall be made payable, half yearly, at the Bank of Pittsburgh; and the certificates so issued shall be signed by the Mayor, and countersigned by the Treasurer: and shall be severally transferable by the subscribers, or their legal attorney, executors, administrators, or assignees, by endorsements thereon, at the office, and in the presence of the treasurer of the city; and shall not be paid or reduced by the city, except with the consent of the holders thereof, before the expiration of one year from the date of the loan.

SEC. 2. *Be it further enacted,* That the faith, credit, funds, revenue, and corporate property of the city be, and they are hereby pledged for the sums hereby authorised to be borrowed as aforesaid, and for the interest of the same. Ordained and enacted into a law, in Councils, August 5, 1833.

ATTEST— JOHN GRAHAM,
President Com. Council.
E. J. ROBERTS, Cl'k. Com. Coun.
W. FORWARD,
Pres. Select Coun. p. t.
WM. PENTLAND, Cl'k. Select Coun.

August 8, 1833--3t.

Just Received,

A FEW bbls. of Fresh Rye Flour;
A few Rag and Venetian Carpetings;
500 cuts Assorted Carpet Chain;
20 pieces low priced Indigo Blue Checks;
10 pieces Dark, Mixed, and Brown Cassinets, Cotton Yarns, Candlewick, and Cotton Bolting.

Also—A fresh supply of Queensware and Glassware, Nails, Juniata Iron, Steel, Shovels, Spades, Coffee Mills, Cotton Bags, and Pittsburgh Manufactures, generally.

ISAAC HARRIS,
Agent and Commission Merchant.

August 8—3t

PORCELAIN TEETH.

DR. E. MERRITT, Dentist, has removed to the house formerly occupied by Mr. Anthony Beelen, No. 43 on the bank of the Monongahela river, between Market and Wood streets.

Dr. E. M. has on hand all kinds of teeth, now in use, and of superior quality. All operations of the teeth will be performed by him at the shortest notice. He has also a superior Dentrifice.

August 8—tf

BOARD OF HEALTH.

PITTSBURGH, July 24, 1833.

THE following resolution, adopted by the Board this morning, was ordered to be published in the newspapers of the city.

SAMUEL PETTIGREW, P. B. H.

Resolved, That, as many citizens are deprived of a supply of water, on account of the general running of private hydrants, and as Hose have been introduced for the purpose of cleansing, and persons being regularly employed in using them for that purpose----that, therefore, the citizens be respectfully requested not to run their private hydrants longer than fifteen minutes, each morning, and that the permission heretofore granted by this Board, to run private hydrants for one hour each day, is hereby rescinded.

August 7—d1w2awtf.

Western Collegiate Institute, FOR YOUNG LADIES,

NEAR PITTSBURGH,

UNDER the superintendence of WILLIAM B. LACEY, D. D., with arrangements of *increased efficiency,* will commence it Autumnal Session, on the First Monday in September next.

In the *Senior* department, Dr. Lacey, with competent Assistants, will hear recitations in Mathematics, Natural Philosophy, Astronomy, Chemistry, Mental and Moral Philosophy, Logic, Elements of Criticism, in reference to Language and the Fine Arts, Elocution, Natural Theology, Evidences of Christianity, and Sacred History.

In the *Junior* Department, Mr. Bryan B. Killikelly, late Vice Principal of a Collegiate School, in the city of New York, will give instructions in Orthography, Reading, Writing, Arithmetic, Grammar, Geography, Botany, Geology, Ancient and Modern History, Rhetoric, and the Latin and Greek languages.

In the *Ornamental* department, Mrs. Lacey, assisted by accomplished instructors, will give lessons in the French, and Italian languages, Vocal and Instrumental Music, Drawing, and Painting, in the style of several of the European, and Oriental Schools, Calisthenics, and the forms and elegancies of polished life.

The price for Board, General Superintendance, Fuel, Candlelight, Pew Rent, access to an extensive Library, instructions in Calesthenics, Orthography, Reading, Writing, Rudiments of Geography, and Arithmetic, and all the varieties of Needle Work, will be $30 per term. To this charge will be added, for instruction in *any* or in *all* of the higher branches taught in the *Junior* department, (except the Latin and Greek languages) $6; or instead thereof, in *any* or in *all* the branches of the *Senior* department, $8; French and Italian, each $8; Music, including the use of the instruments for practice, $13; Drawing, and Painting, $6; Bronzing and Painting, in the Oriental styles, $20. Or, if Parents prefer a more definite arrangement, Dr. Lacey will *Board,* and *Instruct,* in *any,* or in *all* the branches taught in the Institute, for $200, per annum, per scholar, *they paying the amount in advance.*

The Principal intends to establish, in the vicinity, and under his own general Superintendance, a school for small *boys,* where, with his own sons, they will be fitted for entrance into any college in the United States. The charge for *board* and *tuition,* in *any* or in *all* the branches of a *finished English education* will be $120 per annum, and for other branches proportionally moderate.

No scholar will be received for a less time than one term; *and all bills must be paid one quarter in advance.*

Each pupil is required to bring a Bible, Bed, and Bedding, Towels; Table spoon, Tea spoon, Knife and Fork.

Pupils will be permitted to attend any place of public worship their Parents may designate.

The Institute having been in operation four terms, and sustained two public examinations, Dr. Lacey submits, with particular satisfaction, the following spontaneous testimonial of its character, and results from *Parents and friends of pupils in the Institute.*

Pittsburgh, August 3, 1833.

TO THE REV. W. B. LACEY, D. D.—

Dear Sir—We have been so amply gratified by the late examination of your Female Collegiate Institute, that we feel it equally a pleasure and a duty to express our satisfaction, and to wish you such success in your enterprise as may remunerate you for your large expenditure, and, in some measure, compensate you for the unwearied application of your talents and learning to the cause of Education.

The examination was conducted with such minute and critical severity as served to test, to the utmost, the understanding of the pupils, and the extent of their acquisitions in their varied and interesting studies.

When it is taken into consideration that the number of pupils did not exceed fifty, and that three days were spent, almost without relaxation, in ascertaining their mental and moral improvement, the results must be considered as peculiarly gratifying to their parents and friends, and as reflecting the highest credit upon the Principal of the Institute and those to whom their instruction has been committed.

The examination embraced, in its range, the elementary, as well as the higher branches of elocution, Grammar, Geography, Arithmetic, Rhetoric, the elements of Moral Philosophy, Chemistry, Botany, Astronomy, Algebra, French, Music, and Calesthenic exercises.

In the whole course, whether in those matters that belong to the useful and essential branches, or those that may be termed the accomplishments and refinements of Education, care, attention, and talent, on the part of the instructors, and devotion and industry on the part of the pupils, were obvious. Peculiar interest was excited by the classes that had devoted their attention to Elocution and Rhetoric, by the highest class in French, whose translations from D'Agguessau, Racine, & L'Henriade, were subjects of just commendation; and by the young Ladies who had devoted their attention to Moral Philosophy, whose application of its principles to the Science of Government, and thorough knowledge of the Constitution of the United States, created feelings of mingled surprize and admiration in the bosoms of us all.

The class in Algebra, under the particular charge of Professor Aikin, evinced a knowledge of that most difficult branch of Mathematics, and also of Chemistry and Botany, entitling him and them to high approbation.

The Musical exhibition was extremely satisfactory, as evincing the capability of Mr. Rupp, the Musical Professor, in that delightful accomplishment, and the rapid improvement of his pupils.

Without entering further into detail, sir, we express our entire satisfaction with the result of your system, and cannot forbear expressing a wish that the citizens of our wealthy, manufacturing metropolis, and our fellow citizens throughout the western states, who wish to afford to their daughters the benefits of a refined, accomplished, and useful education, at about one third of the expense that such an education would cost them in eastern cities, will confer their patronage upon your Institution. In addition to *all* the advantages as regards the improvement of mind and manners which an eastern Institution can afford, the location of your Institution, surrounded by scenes of picturesque beauty, with its groves, orchards, and gardens, its springs of pure water, and in the midst of a country which may be emphatically denominated the residence of health, would, of itself, operate as a strong inducement to parents who are disposed to send their children abroad for education to intrust them to your care.

Signed by
Hon. CHARLES SHALER,
Rev. GEORGE UPFOLD, D. D.
A. HAYS, M. D.
Hon. SAMUEL PETTIGREW,
JOHN D. MAHON, Esq.
GEORGE BAYARD, Esq.
SAM'L. FAHNESTOCK, Mer.
A. N. McDOWELL, M. D.
JOHN D. DAVIS, Esq.
Mr. CHAS. D. GILLESPIE, and
Major W. WADE.

I have been acquainted with the Institute from its commencement. Its pupils have been unusually healthy; indeed, the situation is one of the most salubrious which I know. At the time of the late examination, in a family of upwards of seventy persons, including the pupils, there was not one who was the subject of medical treatment.

A. HAYS, M. D.

Aug. 3, 1833.—tf.

PROSPECT HILL Literary & Scientific Institution.

PITTSBURGH, Pa.

ON the 1st of July, Mr. DANIEL STONE intends opening, near the City of Pittsburgh, an Institution for the instruction of boys. Its plan is to combine, as far as possible, the peculiar advantages of a domestic and public education.—The pupils, with the principal and assistants, will constitute one family, and be at all times under careful supervision. The *Discipline* will be mild, but strict, such as a father, solicitous for the welfare of his children, would exercise over them. It is believed that an appeal to reason, and the sense of honor and duty, will generally secure obedience. Coercive measures will, therefore, be adopted only in extreme cases.

The *Course of Study* will embrace the English, Latin, Greek, and French Languages; Arithmetic, Algebra, and Geometry; Geography and History—Ancient and Modern; Rhetoric, Composition, and Elocution; Natural Philosophy and Chemistry; Penmanship, Orthography, and Reading. Frequent examinations will be held, open to the friends and relations of the youths.

The *Mode of Instruction* will be thorough and critical, and no subject will be relinquished until fully understood. That the scholar's mind may become vigorous, active, and self-confident—prepared for the stern conflicts of life, and a fearless discharge of its duties, he will be encouraged to reason and decide for himself.

Each student will be required to attend such church as his parent or guardian shall designate.

To preserve health and elasticity of spirits, to check indolence, and promote industry among the students, they will be daily exercised in athletic sports.

Pupils will be admitted between the ages of *Six* and *Sixteen*. None can be received for less than one term.

The uniform *Dress* will consist of a cap, blue roundabout, with metal buttons, and blue pantaloons. Every article of clothing should be marked with the owner's name in full.

The *Terms* are two hundred dollars a year, payable quarterly in advance. This includes Tuition, Board, Lodging, Washing, Mending, Light, and Fuel.

The *Vacations,* after the present year, will be three—the 1st, of two weeks, from the 3d Wednesday in April; the 2d, of four weeks, from the 2d Wednesday in August; and one week at Christmas.

The *Matron's* department will be under the care of MRS. REYNOLDS, of this city.

JOHN I. KAY & Co.,
No. 44 Market street.

P. S. All the new Publications received as soon as published.

July 23, 1833.—tf.

New Theatre, Pittsburgh.

THE Public is respectfully informed, that this ELEGANT NEW THEATRE, at present buildiug, in Fifth Street, will be opened for the Season, under the management of the subscriber, with a Dramatic Company not surpassed by any in the Union, on Monday, the Second of September, 1833.

The building has been substantially erected, by those well known Mechanics, Messrs. *Roseburg, Reynolds, Scott, & McCulloch,* after a plan drawn by John Haviland, Esq., of Philadelphia, whose justly acquired fame as an Architect will be increased by the style and Beauty of the Present Edifice.

A first rate London Artist has been employed, for the last three months, in preparing the *Dresses* especially for this Theatre, which, in point of
ELEGANCE AND SPLENDOR,
Will equal, if not surpass those belonging to the Metropolitan Theatres of New York, or Philadelphia.

THE SCENERY
Has been designed and executed by Mr. J. R. Smith, a young Artist of great talent, and whose productions may challenge comparison with those of the most distinguished Scene Painters of the day.

THE MACHINERY
Has been entrusted to the care of Mr. Stafford, late of the Philadelphia Theatres, and the direction of the
MECHANICAL DEPARTMENT
Will be placed under the Superintendence of Mr. Hoffner, of the Chesnut Street Theatre, Philadelphia.

In addition to the exertions of the Regular Company, most of whom are advantageously known in the Eastern Theatres, the Manager has great pride and pleasure in informing the inhabitants of Pittsburgh and its vicinity, that he has engaged, at great expense, the celebrated American Tragedian

MR. E. FORREST,

Who will have the honor of appearing before them at an early period, of which due notice will be given. Negotiations have already been entered into with the most distinguished Performers of the American Stage, who will appear in rapid succession—among others,

MR. & MRS. HILSON,
MISS CLARA FISHER,
MRS. KNIGHT,
MR. J. R. SCOTT,

Also, Mr. PARSLOE, of the Theatre, Covent Garden, London, &c. &c. &c.

In making these arrangements, the subscriber has used every exertion in his power to render THE THEATRE a place of rational amusement---

"To raise the genius and to mend the heart;
Shew Virtue her own features;
Vice her own image;
The age and body of the time, his form and pressure."

And he throws himself confidently on the liberality of the citizens of Pittsburgh for support.

FRAS. C. WEMYSS,
Lessee Pittsburgh Theatre.

SATIN BEAVER
HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,

PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

April 23—1y

ABSCONDED from the Clinton Paper Mill, Steubenville, ABRAHAM WILLARD, an indented apprentice to Henry Holdship & Son.

All persons are cautioned against employing, harboring, or trusting him, as we will pay no debts of his contracting.

March 22. No. 68, Wood street, Pittsburgh.

MILL AND CROSS-CUT SAWS.

THE Subscriber has the satisfaction to say to the public, and his friends, that he has connected with his other business, the manufactury of Mill and Cross Cut Saws; and can furnish supplies to merchants and others: he believes them to be equal to any ever used in the western country—the experience of the workmen employed, with the known good qualities of the steel, justifies him in warranting the article to any who may be disposed to patronize western industry.

Z. PACKARD.

DOCTOR ROBERT'S

☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

☞ Sold by THOMPSON & MILLER, at their Drug Warehouse, No. 81 Wood street, Pittsburgh. Nov. 26 tf.

Receiving & Forwarding House,

BRITISH LUSTRE,

For Polishing Stoves & Grates.

THIS LUSTRE, with a little rubbing, will produce a brilliancy highly ornamental; and, when once obtained, may be easily preserved.

For sale by H. P. SCHWARTZ & Co.

March 22—tf No. 42 Market street.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞ A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

For sale by H. P. SCHWARTZ & Co., No. 42 Market street. August 24, 1832.—tf

---

E. HALE,
SURGEON DENTIST,

N. B.—For sale, a superior Tooth Powder. Also, J. White's Tooth Ache Drops.

March 10, 1832.—tf

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

Sold by

H. P. SCHWARTZ & Co.
No. 42 Market Street.

Dec. 4, 1832.—tf

CANVASSED HAMS.

JUST received, in superior order, 1000 CANVASSED HAMS—for sale by

JAMES ADAMS, Jr. & Co.,
Nov. 13—tf Water street.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

LEONARD CHESTER,
Acting for the Proprietor.

Pittsburgh Hotel, April 19, 1831.

VALUABLE PROPERTY
FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river, where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

Dec. 16—tf. ROB'T. M'FARLAND.

To Baltimore and Philadelphia

TRAVELLERS.

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning, [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]

REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning*, from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

JOHNSTON & SMITH,
No. 6, George street.

Philad. Feb. 18, 1833.

N. B. A good Washington Super Royal Press, and 3 Standing Presses, in good order—together with several founts of 2d hand type, will be sold low.

Stereotyping, in all its branches, executed by L. Johnson, as heretofore.

March 19.
